A Message from Unity of Flagstaff

Dear Unity Family and Friends,

Last night, Kell Kearns and Cynthia Lukas, came to our church to present their newest documentary film titled: "Globalized Soul". We had advertised this event throughout Flagstaff and its various spiritual communities. We were gratefully surprised about the great interfaith turnout and beautiful evening event.

Kell Kearns joined our spiritual community about 10 years ago, and as a film maker, with Cynthia, produced several outstanding documentaries since then, among them "The Consciousness of the Christ: Reclaiming Jesus for a New Humanity", "Rumi Returning" and most recently "Globalized Soul: Stories from the Tipping Point to a New World".

The main question in this documentary is: Do each of us have a globalized soul that is ready to embrace the challenges of our times and transform our planetary crises into an new and successful way of being in this world. The film tells the stories of several communities that have accomplished fundamental breakthroughs in creating religious harmony, environmental responsibility, gender equality, and collective non-violence in our world. The documentary shows us that such momentous human advances are not just possible, but are- in spite of grave challenges- inevitable. "Globalized Soul" celebrates all Humanity's Oneness.

Our question, of course, remains: How can we, as a small faith community here in Flagstaff, make a contribution towards Humanity's Oneness?

As a friend of mine told me a long time ago: Think globally and act locally. Acting locally and thinking globally would mean that we hold the vision of "Unity" for our own community. "Centered in God, we co-create a world that works for all" is Unity's global vision.

We have been told by Jesus, our Wayshower, that "where two or three are gathered in my name, I am there among them" (Mt. 18:20). This statement reminds us that when we create a field of agreement, when we touch and agree on a God-inspired idea, that idea manifests.

Charles Fillmore tells us that a divine idea is already complete on the spiritual plane. When a group has the heartfelt agreement on what they want to accomplish, the "how to's" are revealed. When two or more are gathered in the same consciousness, a potent energy field is created that neutralizes doubt and attracts everything that's needed for the idea to become visible. Consciously "seeing" and therefore creating a world that works for all is what a globalized soul is all about.

The good thing is that we are already gathering in Spirit, everyday, at 9pm, for 15 minutes, and, beside numerous other times, on Sundays, creating a field of agreement. This prayer-time can help us to anchor on earth the divine and perfect spiritual ideas that are seeking to be expressed through us and as us. When we are agreeing and vibrating in one accord, all things are possible.

I believe that this is the “heartbeat” of a globalized soul. Believing it means seeing it and through manifestation, experiencing it.

I hope you will join us in manifesting heaven on earth by practicing globalized soul beliefs and behaviors -like prayer- for the benefit of a world that, ultimately, will work well for all. This is true global spirituality -beyond all religion-that is transforming our world today. Thank you for your participation in- and dedication to- such local and global transformation!
